Indicate (where possible) letter or number, color of printing and VIN

Box C
Indicate (where possible) letter or number, color of printing and VIN

Box D
Indicate (where possible) letter or number, color of printing and VIN

Box E
Indicate (where possible) letter or number, color of printing and VIN

Box F
Indicate (where possible) letter or number, color of printing and VIN

Inspector Punched ID & Printed Names

Depending on when the car was built we can sometimes find and identify letters and numbers stamped in the sticker or a name printed on the surface of the sticker.

Not focusing on ink applied/stamped inspection marks on the later car in this survey but feel free to include them with your sticker location and descriptions if you choose to.
